Art Unit: 3641

1. Claim 2 contains the trademarks/trade names M60 and 240 Golf. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a particular type of machine gun and, accordingly, the identification/description is indefinite.

In claim 2, what features of a machine gun need be present to qualify the machine gun as either an M 60 machine gun or a 240 Golf machine gun? If there are not features common to all of these particular types of machine guns that are well known and well defined in this art or if the written specification does not provide support for what these features are, such claim language is indefinite as to its intended scope.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, use of parenthesis makes the claim language indefinite as to whether or not the claim language included in the parenthesis is limiting to the claim.

3. Claims 1 and 3-10 are allowed.

Art Unit: 3641

4. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sprenger et al. and Hinton disclose state of the art loading devices.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Johnson whose telephone number is 571-272-6877.

The examiner can normally be reached on Tuesday through Friday.
